

We have been engaged by the Management of this building to carry out a routine pest control service of the premises occupied by you. This service is being performed to eliminate (or prevent) **BEDBUG** infestations.

Assassin Pest Solution will be treating your premises on _____, 20____ at _____am/pm. It will be necessary for you to vacate your premises until _____.

In order to enable our Pest Solution Specialist to apply an effective treatment, we require your cooperation in carrying out the following instructions:

- Remove all food, dishes and cooking utensils from countertops, stoves and tabletops and place in cupboards or in the fridge.
- Furniture in all rooms should be moved at least 2 feet away from the walls, to allow access to the baseboard perimeters.
- Remove all sheets and blankets from all beds. Wash bedding right after removing from the bed(s).
- Leave the box spring and mattress on the bed frame but allow enough room for them to be propped up against the wall. Don't install a new mattress in the room until after the treatment. Mattress and box spring encasements are strongly recommended to be used.
- Do not place items on couches, as they may also need to be treated.
- All closets and dresser drawers should be completely emptied, including hanging clothes. All clothing should be washed in hot water and placed in garbage bags until infestation is gone.
- All birds and pets must be removed from the premises for 4 to 6 hours. Fish tanks must be covered, and the pumps turned off.
- Remove the electrical outlet switch plate covers to provide access to the walls.
- Vacuum all floors (carpets/wood/tile) especially around baseboards, cracks/crevices and remove vacuum bag and place in outside garbage.
- Remove the front panel from the heating/air conditioning units, if applicable.

AFTER TREATMENT

You will see movement after treatment. It is not an instant kill. Please do not use domestic sprays. This just chases the insects deeper into hiding. If you want to speed up the process, please vacuum all cracks and crevices in and around the bed and couch area.

Note: It is the responsibility of the landlord or building owner to notify all tenants that may be affected by the above treatment. If confused, please contact Assassin Pest Solution.

**CO-OPERATION IS ESSENTIAL FOR BED BUG CONTROL AND
FOLLOW-UP TREATMENTS MAY NEED TO BE COMPLETED**
